Open Box / Power Box

GP4000 Series

Varied and flexible line up satisfying customers' needs

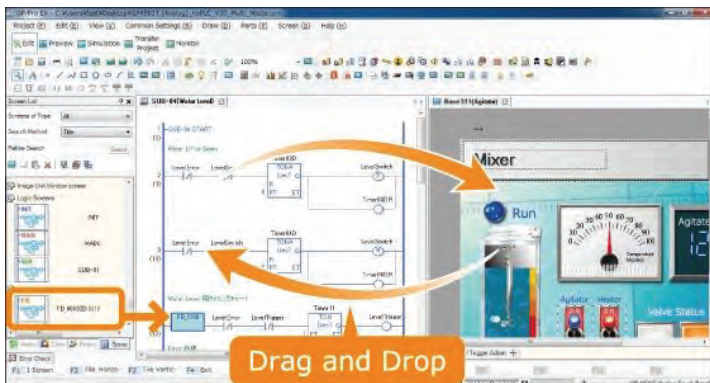

1. Widest model and range line-up in the Pro-face brand

2. User friendly software and develop screen program in short time

Many pre-configured sample screen for immediate

GP-Pro EX

Ladder Function

Screen Simulation Function

3. Lower maintenance cost due to long lasting and easy to replace, compatible with our legacy models

Backward compactable software

GP410

GP577R

GP2000

GP3000

GP4000

Data in GP-PRO/PBIII for Windows or later is convertible using project converter. Smooth transition to the latest models. Since the 80s, programed in DOS OS.

Same cut-out size

Panel cut-out dimensions compatibility for easy replacement

4. Easily connect multiple USB devices

Easily connect to HMI with a USB cable. Cabling labor time is reduced.

Compact all-in-one unit for easy installation in small spaces

Flexible installation for integrated or separated

Ethernet Multi-Link function

PS5000 Series - Industrial PC

Pro-face
by **Schneider Electric**

Excellent performance in a comfortable package

Variety of screen sizes and interface options

Solid quality with carefully-selected, reliable parts

Long-term supply of OS

Remote display

Compatible with encryption enabled by TPM, Windows BitLocker and MacAfee Embedded Control license

High-quality, attractive enclosure and integrated heat sink contrast

Design and maintenance-conscious interface layout

IP66 for harsh and dusty conditions

Multi-touch display contrast

Low-reflectivity glass less glare and higher contrast

Full HD display contrast

Hot-swappable HDD during operation conscious interface layout

Fan-less design prevent IPC stop functioning due to excessive heat, dust and oil

Compatible panel cut out of PL3000 Series (2003)

Many interface options

40% ultra-thin

VESA mounting

ST6000 Series - Achieve a high level of visualization with the new basic HMI

BLUE Versatile Software

Revolution new software, BLUE will offer an alternative experience in hardware design. Anyone can easily create and change dynamic screens allowed for gesture operation. BLUE will provide a ground-breaking versatile design style.

4" 7" 10" 12" 15"

Aluminum Front Panel

- 16 Million colors
- Better graphics and font
- Dual ethernet ports

COM1: RS-232C
COM2: RS-422/485

100BASE-TX

M221 PLC: The best performance for its size!

- SD card and USB port
- 2 analog inputs and a broad choice of I/Os
- Run/stop switch and cartridge extension
- Ethernet and serial line ports
- High degree of flexibility lets you add additional modules easily

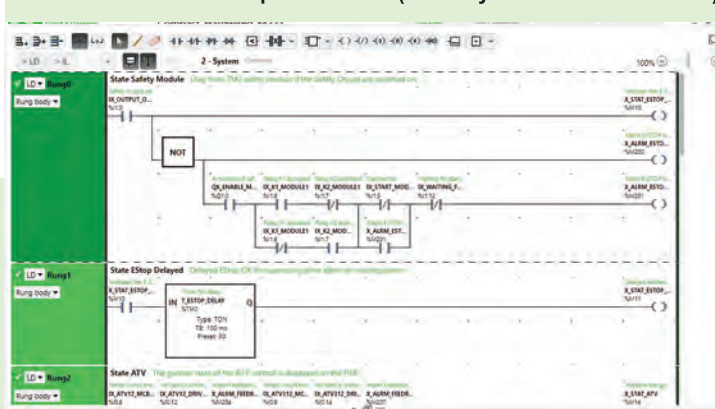

M241 Logic Controller: The benchmark for compact machine controllers!

- 5 Ethernet ports, CANopen, 2 serial lines, USB port for programming
- High processing CPU and cartridge extensions
- Web Server and FTP server
- Pulse train outputs / high-speed counters
- SD card
- Fast and easy configuration

EcoStruxure Machine Expert – Basic™ (formerly known as SoMachine)

They can be programmed in:

- Instruction List (IL) language
- Ladder (LD) language
- Grafcet graphic language
- Structured Text (ST) operations
- User-defined functions
- User-defined function blocks

SD memory card

- Application backup
- Program transfer
- Data logging
- Firmware updating

M251 Logic Controller- Your choice for modular and distributed architectures that connect everything!

- Expansion bus Modicon TM3
- Ultra compact format
- Up to 14 fast expansion modules
- Powerful data transfer via SD Card, embedded Web- & FTP Server
- 22µs by instruction
- 64MB Ram and 128MB Flash
- CANopen, Modbus TCP, and EtherNet/IP
- Embedded Ethernet switch with 2 ports
- Up to 3 communication modules

Industrial Panel PCs

Winmate is the Professional and Modularized Panel PC Provider

Front IP65 Water and Dust Proof

IP65 sealing, which means it is completely impervious to dust and is even protected against splash of waters (within certain limits).

P-Cap Touch

Projected capacitive touch for the ultimate convenience and ease of use, allowing users to feel pleasant experience when using the device.

Industrial panel pc is an all-in-one system designed around a highlight integrated Intel Core i3/i5/i7 (Kaby Lake) single board computers. It supports touch panel displays and offers multiple expansion and I/Os.

Chassis Display

Industrial chassis display comes in a sleek housing to perfectly fit in confined spaces. Display varies in color and size ranging from 6.5" up to 64.5".

Panel Mount Display

Panel mount display is perfect for space considerations and support panel, front mount and VESA mounting for different applications.

Front IP65 Display

Designed to be rugged, Front IP65 Display are ideal for use in wet and dusty environments, such as outdoor kiosks or SPA pool kiosks.

Full IP65 Display

Winmate multipurpose and waterproof fully sealed IP65 display is protected against outer dust and water splash and ideal for use in harsh environments such as food processing and packaging automation.

Marine

Marine Grade Panel PCs with Various Display Interface Options with Various Display Interface Options

WINMATE

Marine Display

Your competent partner for measurement systems ranging from standard through to customised complete solutions!

Stand alone and secure data logger!

- Work standalone without computer
- Strong networking capability, remote & wireless viewing
- Universal inputs suitable for any type of sensor (e.g. mA, mV, RTD, thermocouples)
- Quality & high speed input (24 Bits ADC & 1KHz Sampling)

Applications:-

- Traffic census data loggers
- Solar panel data loggers
- Aircraft data loggers
- Temperature data loggers
- Meteorological data loggers
- High-speed data loggers

Monitoring and fault analysis!

- Synchronous acquisition of high-speed analog and digital signals
- Condition monitoring and fault diagnostics within a single device
- No requirement for an on-site PC and easy data read-outs using a USB stick
- Flexible data transmission via Ethernet, USB, Serial and WLAN
- Fast and easy data evaluation using logic analyses and trends

Message Series

Applications:-

- Fault analysis in industrial cranes
- Monitoring of wear in crane systems
- Development of crane maintenance-plans using data analysis
- Monitoring of system symmetries
- Monitoring crane travel and range distances
- Error detection in control and power components
- Maintenance planning for container cranes

Precision measurement!

- Easy-to-use, automated testing procedures
- Test sample conditioning management, voltage supply, frequency converters and switch matrixes
- Time-synchronised temperatures, pressures, rotations, electrical measurements and torques
- Precision electrical measurement via power measurement units
- Monitoring of threshold values online during the testing procedure

Applications:-

- Cold resistance measurement and extrapolation of winding resistances
- Non-load & rated load testing
- Load curves testing
- Overload trials & locked rotor testing
- Torque-speed characteristic curve
- Testing of voltage series
- Determination of efficiency
- Heat testing

The BeanScope® is a real time WSN supervision and control monitor. It allows the users to monitor and operate in real time BeanAir® WSN. The BeanScope® is also equipped with a smart expert system that allows users to interpret elements such as data acquisition or alarms related to the sensor network.

wRemote is a new concept of Wireless Telemetry, based on mesh networking technology. The system was designed for industrial and open field network, where you need to collect remote and disperse information in a reliable and low cost networking solution.

2.4GHz Telemetry

• ZigBee Wireless Telemetry

wRemote

ZigBee Wireless Telemetry System
2.4GHz

Industrial

Connectivity of the control panels of wind turbines through fiber optic rings.

Water and Sanitation

Wireless acquisition of basic variables measurement from the injection of current rectifiers for the cathodic protection of pipelines.

Remote Weather Monitoring Station

Wireless acquisition of environmental data, temperature, raindrop and particle counter.

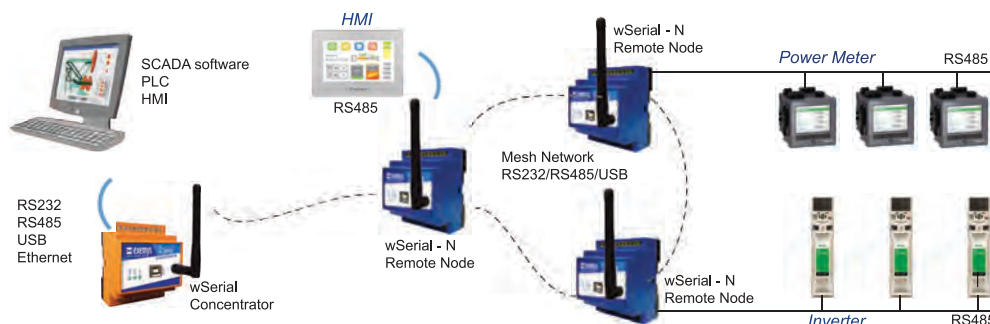

Remote Tank Farm Level Monitoring

Inventory monitoring and control wirelessly.

Advantages of Mesh Network

- It is possible to carry messages from one node to another by different paths.
- Each node has its own communications with the others.
- Each node extends the scope of communications.
- It is much safer. If a node fails, another will take over the traffic.

Wireless Radio 2.4GHz Mesh Network Technology wSerial

wSerial is a new concept in Serial Radio, which introduces Mesh Networks technology to achieve not only point to point, but also multiple connections. The system was designed to be a real network of serial ports to industrial facilities where there is a need to gather information from remote and dispersed devices, reliably and inexpensively.

Wireless Radio 2.4GHz Mesh Network Technology wTunnel

wTunnel

The system was designed to be a true Point to Point Tunnel to reflect conditions and field values, reliably and at low cost.

*For more information, please log on to <http://www.scigate.com.sg>

Telemetry Device with 3G+2G Cellular/Satellite Communication

GRD

Device for monitoring and controlling with 3G Cellular/Satellite communication and Programmable Logic

The GRD family of products helps control and supervise any kind of equipment from a distance, be it a control system or process system facilitating and implementation of the remote telemetry system. Additionally it includes the possibility to load test script to perform internal logic

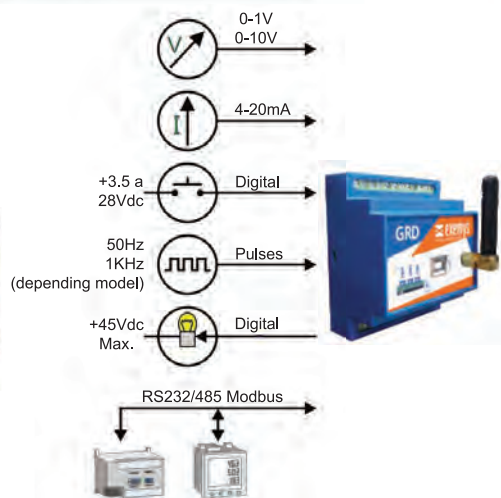

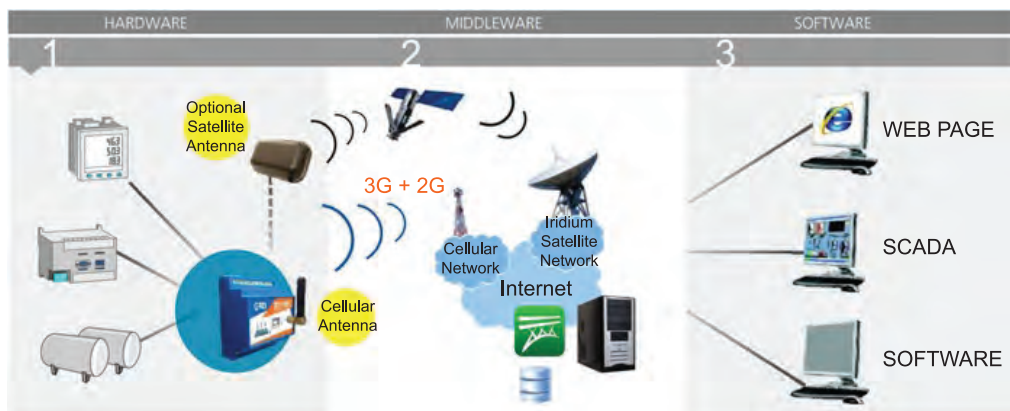

Electric Power

Remote monitoring and control of large size generations.

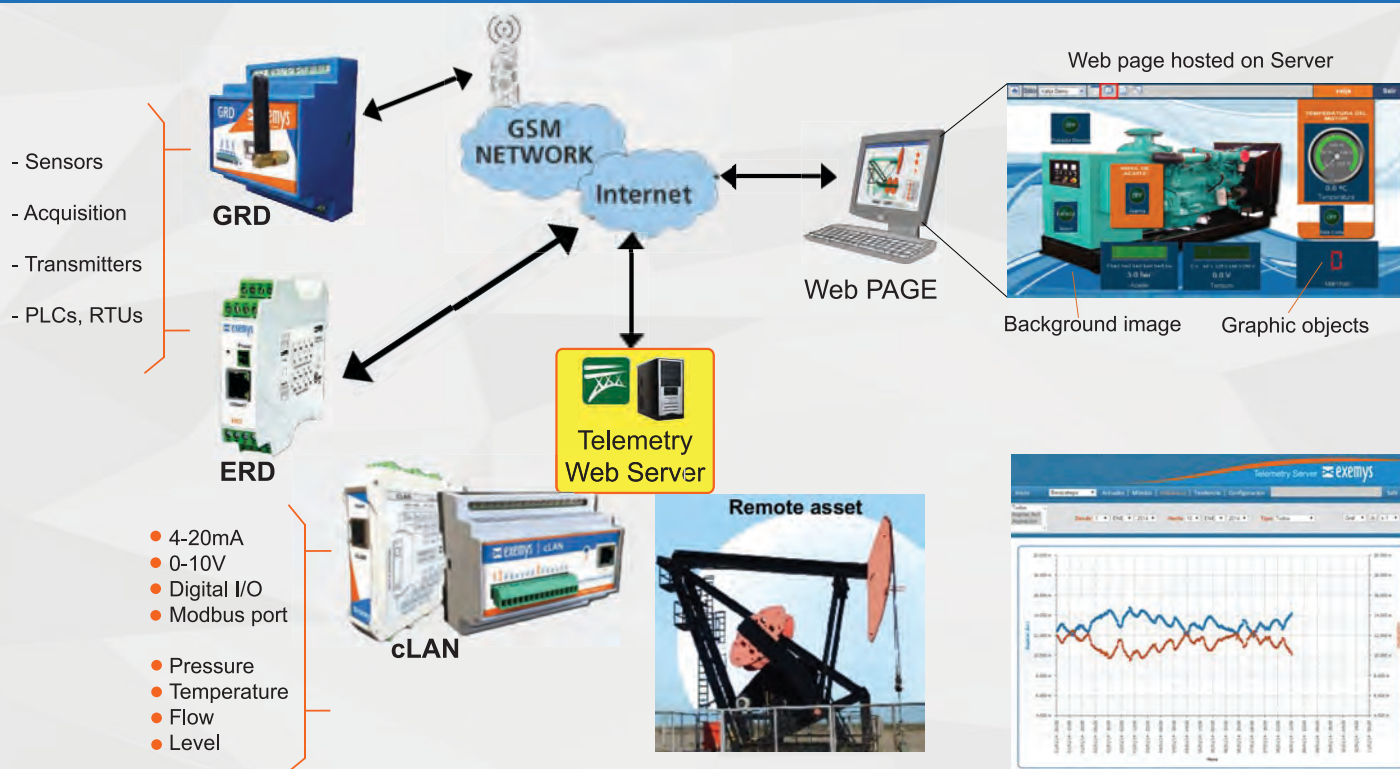

Oil and Gas

The gas compressors in the wellhead installed and dispersed in remote sites. The telesupervision of the functioning compressors permits improved performance of the machine, increasing its productivity.

Telemetry Web Server

Reflective Technology™

Condensation is the most common variable in liquid level applications. Condensation attenuates the acoustic signal of ultrasonic sensors with horizontal transducers, weakening their signal strength and signal to noise ratio by up to 50% and substantially reducing their measurement reliability. At the core of Reflective Technology™ is a simple fact. Unlike flat horizontal surfaces, significant water droplets cannot adhere to smooth vertical surfaces. By orienting the transducer vertically, condensation runs off the transducer and does not affect sensor performance. The unimpeded transmit and receive signals are redirected to and from the liquid off a 45° reflector, delivering reliable level measurement.

DSP Technology

Flowline ultrasonic level sensors feature our patented digital signal processing technology that delivers the Flowline advantage, accurate and reliable, non-contact measurement of chemical, oil, water and wastewater from 0.25m-10m. This adaptive technology creates a living map of your tank process and continuously optimizes sensor power, obstacle recognition, signal output filtering, environmental noise rejection and fail-safe diagnostics.

Beam Width (RED)
This intelligent sensor is taking measurement based on a 3" (7.6cm) invisible beam width, it enable the sensor to works in narrow restricted space that where never available before by any other ultrasonic transmitters.

Level Switches

Diaphragm Switch KF-500

- Detect pressure change
- No power source
- Viscous liquids
- Corrosive liquids
- High-temperature 150°C
- No moving part

Vertical Float Switch KF-300

- Corrosion resistant
- Max pressure 460KPa
- Max temperature 100°C
- Specific gravity >0.63
- Moisture, gas, dust
- Explosion-proof

Electrode Level Switch KF-600

- For conductive liquid
- Electrode Ø6, 8, 10, 12, 15, 20
- Up to 9 electrode
- Electrode material SUS
- Titanium, Hastelloy

Cable Float Switch KARI

- Specific gravity >0.8
- Single and multi-points
- Viscous liquids
- Scum is surely detected

SUS Float Switch RFS-6

- Corrosion resistant
- Max pressure 1MPa
- Max temperature 200°C
- Specific gravity >0.65
- Moisture, gas, dust
- Explosion-proof

Small Float Switch MFS17-C

- Heat resistant 80°C
- Vertical-mounting
- PP material

Small Float Switch MFS9-N1

- Heat resistant 80°C
- L-shape
- Horizontal-mounting
- PP material

Horizontal Float Switch KF-200

- No power source needed!
- High temperature 250°C
- Specific gravity >0.83
- Explosion-proof

Level Transmitters for Liquid and Powder

Capacitance Level Transmitter KLI / KLT / KLG

- No moving parts
- All conductive media
- Corrosion resistant
- Max Length 50M
- Max Pressure 10 bar
- Max Temperature -200~500°C
- Explosion-proof
- Liquid & Powder

Float Transmitter KF-100

- Specific gravity 0.5~1.0
- Max pressure 4.9 Bar
- Max temperature 100°C
- Explosion-proof
- SUS, PVC, Teflon
- Liquid

Sounding Bob Level Transmitter KSL

- Max length 40m
- Max temperature 100°C
- Explosion-proof
- Suitable for powder

Level / Flow Switch for Powder/Granules

Vibration Level Switch KVX

- Specific gravity >0.03
- No moving parts
- Corrosion resistant
- Max length 6m
- Max pressure 10 bar
- Max temperature -25~150°C
- Explosion-proof
- Powder

Rotary Paddle Level Switch LS

- Specific gravity >0.83
- Max length 300mm
- Max pressure 10 bar
- Max temperature 120°C
- Powder

Capacitance Level Switch ALN / SL

- No moving parts
- All conductive media
- Corrosion resistant
- Max length 2m
- Max pressure 10 bar
- Max temperature -25~80°C
- Explosion-proof
- Liquid and powder
- Teflon coating
- Wire electrode

Microwave Level Switch MWS2

- No moving parts
- Corrosion resistant
- Max distance 35m
- Max temperature -20~900°C
- Powder

Microwave Flow Switch KFD-1

- No moving parts
- Corrosion resistant
- Max distance 1.5m
- Max temperature -10~80°C
- Powder

The STS strengths are:

- Available in standard and customized solutions
- High quality and durable products
- Accurate, reliable and long term consistent quality due to in house produced transducer
- Small orders without extra charge
- 10-15 days (Ex-Factory) delivery time for customized products
- Country of Origin - Switzerland

Miniature S-Beam Jr. Load Cell 2.0 (LSB205)

Introducing the new LSB205 Miniature S-Beam Jr. Load Cell with TEDS. Capable of measuring both tension and compression forces from 1 to 100 lbs. This impressive load cell features an improved fatigue life and off center loading capabilities due to its construction with heat-treated stainless steel. The miniature frame includes an integrated TEDSchip and PT-1000 temperature sensor. With exceptional overload protection, this model is very adaptable for various industry applications.

IPM650

Founded in 1963 our company went through all levels of technological developments. Today we provide integrated solutions for weighing, process control and measurement. Our wide range of products and systems, including those developed internally and worldwide traded, guarantees every kind of weighing and measurement project for all industrial applications: steel mill, metallurgy, paints, tanneries, concrete mill, paper mill, glass industry, pharmaceutical, chemical, petrochemical, food & beverage and packaging.

DAT 1400

- Resolution: 24Bits ADC
- Acquisition Frequency: 1KHz
- Data Logger (Option)
- Fieldbus: Profinet, EtherCAT, Ethernet IP, Ethernet.

MCT 1302

- Touch screen weight indicator
- Perfect for static weighing and loading-unloading and multi-component dosage
- Programmable function

UWT 6008

- Support 8 Load Cells
- Monitor all load cells and generate alarms due to excessive load cell signal drift, loss of connections, failure of load cells, unbalanced weight distribution.
- Emulative control allows the continuity of work of the weighing system even in case of failure on one of the load cells, until the replacement of the same.
- Compensation algorithm to equalize legs angles.

TESTER 1008

- Four Channels Weighing Indicator
- Calibrator / Simulator Load Cells

CGS4-C

Junction Box

MH

- Adjustable radial and tangential mounting
- Allow normal expansion and contraction tank
- Replace load cell without external jack

MKX

- Adjustable radial and tangential mounting
- Allow normal expansion and contraction of tank
- Replace load cell without external jack
- Height adjustment

Load Foot

- Rubber base
- Swivelling
- Height adjustment

DH

- Anti-tilting Load Foot
- Replace load cell without external jack

Levermount

- Height adjustment
- Anti-tilting

PKD 2000 Weigh Indicators

- 24-key waterproof alphanumeric keypad
- Support 4 weighing scales
- ABS waterproof IP65 enclosure
- Power up to 8 load cells
- CE-M approvable (OIML R-76 / EN 45501)
- Supply AC100~240

PM Platform
Single Off-Centre Load Cell 300kg
Support 800x800mm

PQ Platform Scale

Four Load Cell 3000~6000kg

Off-Centre Load Cell

Low Profile Off-Center Load Cell is high performance single point load cell. There are insensitive to off-center loads or moments, ideal for bench platforms.

PS019

Capacity: 15~400kg
Size: 800x800mm max.

PS014

Capacity: 300~3000g
Size: 200x200mm max.

PSZL

Capacity: 1&2 tonne
Size: 1200x1200mm

PSTA2

Capacity: 6~40kg

Load Cell DDR

EXD E 70/2

Compression Load Cell

- Low profile pancake load cell
- Small physical size
 - Stainless steel
 - 500kg to 30te
 - IP68

- Through-hole load cell
- Force washer
 - Stainless steel
 - 12.5kN to 540kN
 - IP66

- Low profile pancake load cell
- Small physical size
 - Stainless steel
 - 100kg to 5te
 - IP67

- Column type load cell
- High capacity
 - Stainless steel
 - 2te to 1000te
 - IP67

Tension and Compression Load Cell

- Stud type load cell
- Compact design
 - Stainless steel
 - 100N to 50kN
 - IP65

- S type load cell
- Fully welded construction
 - Stainless steel
 - 250kg to 20te
 - IP68

- S type load cell
- High accuracy
 - Alloy Steel
 - 1500kg to 5000kg
 - IP67

- Low profile pancake load cell
- Stainless steel
 - 5kN to 2000kN
 - IP66

- Column type load cell
- Female end threads
 - Stainless steel
 - 500kg to 100te
 - IP66

Beam Load Cells

- Stud type load cell
- Compact design
 - Stainless steel
 - 100N to 50kN
 - IP65

- Shear beam load cell
- 200lb to 5000lb
 - Stainless steel
 - Unique blind loading hole
 - IP67

- Beam load cell
- Low range
 - Stainless steel
 - 2kg to 50kg
 - IP65

- Shear beam load cell
- 500lb to 10,000lb
 - Stainless steel
 - Unique blind loading hole
 - IP68

Various Custom Load Cell Solutions

ATEX load cells, load pins and load shackles

Tension Load Cell

LMP

- Standard Load Pins
- 500kg to 1500te
- Stainless steel
- IP67
- Simple to install

WLL

- Telemetry load link
- Stainless steel
- 5te to 100te
- IP67 sealed
- Supplied with transit case

RILL

- Telemetry load link
- Lightweight aluminum
- 1te to 300te
- IP67 sealed
- Supplied with carry case

LPC

- Shackle/Clevis Load Pins
- 1te to 1500te
- Stainless steel
- IP67
- Special versions available

- Wire and wireless shackle load cell
- 1te to 1000te
- High tensile carbon steel
- IP67
- Submersible versions available

Various Custom Load Cell Solutions

More Precision. Precise . Reliable

Triangulation Laser sensors for displacement, distance and position

- Worldwide largest range of sensors from low cost to high end with blue laser
- Measuring range from 2 to 1000mm
- Fast measurements up to 49kHz
- Compact design with integrated controller
- Non-contact and wear-free
- Large distance from the measurement object
- Small light spot for smallest parts
- Precise measurement results with high dynamics
- Almost independent of surface properties

Roundness Measurement

Bend Lead Detection

RTSC

Thickness Measurement

	Measuring ranges (mm)	Linearity \pm % FSO	Repeatability μ m	Measuring rate (kHz)	Output	Functions
optoNCDT 1220 optoNCDT 1320	10, 25, 50, 100	0.10	1	2	4~20 mA RS422	Compact, high speed

optoNCDT 1750LL optoNCDT 2300LL	2, 10, 20, 50	0.02	0.0015	49	4~20 mA; 0~5V/ 0~10V RS422	Shiny metallic object
optoNCDT 1710 optoNCDT 2310	10, 20, 40, 50, 1000	0.03	0.005	49	Ethernet/ EtherCAT/ RS422	Long-range distances
thicknessSENSOR	10, 25	10 μ m-40 μ m	-	4	0~5 V, 0~10 V, \pm 5 V, \pm 10 V, 4~20 mA, Ethernet	Non-contact thickness measurements of strip and plate material

2D/3D Laser scanners for profile measurement

- High accuracy and profile frequency
- High performance signal processor
- Compact design with integrated controller
- Interfaces for integration on customer side

Weld Seam Position

Width Control

Windshield Profile

Alignment of Phone Cover

IC Coplanarity

Confocal chromatic sensors for displacement, position and thickness

- Tiny, constant measuring spot
- Manometer resolution
- One-sided thickness measurement
- High-speed measurements with sub-micrometer accuracy
- Measuring range from 0.1~30mm
- Resolution down to 0.016μm

Multi-Peak Software

Glass Thickness

Glass Thickness

Parallelism of Lapping

optoNCDT ILR - Non-contact laser distance sensors

- Extremely large measuring range from 0.1m to 3km
- Integrated heating option for outdoor environments
- Robust and compact design
- Outstanding repeatability and response time
- Use with and without reflector

	Measuring ranges (m)	Linearity (± mm)	Repeatability (mm)	Response time (ms)	Output	Functions
optoNCDT ILR 1030/1031	No reflector 0.2-15 with reflector 0.2-50	20	5	10	4~20mA	Compact laser distance sensors
optoNCDT ILR 1181/1182/1183	Measuring range 0.1 – 150	2	0.5	20	4~20mA RS232/ RS422/ SSI/ Profibus	Precise laser distance sensors
optoNCDT ILR 1191	Measuring range 0.5 - 3000	20	20	0.5	4~20mA RS232/ RS422/ SSI/ Profibus	Laser distance sensors

Classification and sorting

Robot Car

Storage Rack Positioning

Container Positioning

Miniature USB thermal imagers

- Non-contact measurement
- Temperature range from -20°C to 2450°C
- Real-time thermography
- Excellent thermal sensitivity and resolution
- Compact design with USB interface

Model	Description	Temperature	System accuracy
TIM 8	Intelligent Spotfinder Pyrometer	-20°C to 900°C	±2°C or ±2 %
TIM 40	Compact OEM Thermal Imaging Camera	-20°C to 900°C	±2°C or ±2 %
TIM QVGA/QVGA-HD	Thermal Imaging Camera with high resolution and sensitivity	-20°C to 900°C	±2°C or ±2 %
TIM 640	Worldwide smallest VGA thermal imaging camera	-20°C to 900°C	±2°C or ±2 %
TIM QVGA-G7/VGA-G7	Thermal imaging camera with line scan feature for the glass industry	200°C to 1500°C	±2°C or ±2 %
TIM M1	Thermal imaging camera for hot metal surfaces	450°C to 1800°C	±1 % of reading
TIM M05	Thermal imaging camera for molten metal and metal surfaces	900°C to 2450°C	±1.5 % of reading

Non-contact IR temperature sensors

- Temperature ranges from -50°C to 2200°C
- Sensors for the metal industry
- Sensors for the glass industry
- High-speed model
- Also suitable for the Ex area

thermoMETER CS / CSmicro / CSLaser

- Compact, miniature and low cost
- Temperature ranges from -40 °C to 1600 °C
- Robust, silicon-coated lens
- Integral controller
- Scalable analog output: 0-10 V / 0-5 V
- Ideal for OEMs, also available as two-wire model and high-resolution version

thermoMETER CTRatioM1/M2

- Glass fiber ratio thermometer
- Temperature ranges from 250 °C to 3000 °C
- Up to 200 °C ambient temperature without cooling
- Measurement depends only on the emissivity ratio but not on the absolute emissivity
- Extremely short response time of 1 ms
- Resistant to disturbance such as smoke, fog and partially concealed or moving objects
- The measurement object can be smaller than measurement spot

thermoMETER CTlaser/FAST

- Extremely precise IR sensor with laser sighting
- Temperature ranges from -50 °C to +975 °C
- Infrared sensors with up to 75:1 optical resolution from 0.9 mm measurement spot
- Double laser marks the exact spot location from a spot size of 1mm
- Response time from 9 ms

thermoMETER CTlaser M1/M2/M3

- For metal production with reduced wavelength:
- 50 °C to 2200 °C

thermoMETER CTlaser M5 (525 nm)

- For liquid metals: 1000 °C - 2000 °C

thermoMETER CTlaserGLASS

- For glass measurement: 100 °C to 1650 °C

thermoMETER CTlaserCOMBUSTION

- For measurement of flames: 200 °C to 1450 °C

thermoMETER CT

- Extremely low cost and high accuracy
- Temperature ranges from -50 °C to +975 °C
- One of the smallest infrared sensors worldwide with 22:1 optical resolution
- Up to 180 °C ambient temperature without cooling

thermoMETER CTP7 / CTP3

- For thin plastic films from 0 °C to 710 °C

thermoMETER CTM1/M2/M3

- For metal processing
- Temperature ranges from 50 °C to 2200 °C

thermoMETER CThot

- For difficult ambient conditions up to 250 °C
- Ambient temperature without cooling

thermoMETER CTM-3XL

- For laser welding processes from 100 °C to 1800 °C

Eddy current displacement sensors for displacement and position

- High resolution and accuracy
- Fast measurements up to 100kHz (-3dB)
- Insensitive to dirt, pressure and oil
- Ideal alternative to inductive displacement sensors
- Customized sensor design

Capacitive sensors for displacement and position

- Non-contact, wear-free measurement
- Unmatched accuracy and stability
- High bandwidth for fast measurements
- Temperature range -270°C to +200°C
- Modern controller technology

Colour sensors & LED analysers

- Colour recognition, colour testing and colour measurement
- Simple quality control
- Easy and fast commissioning
- Sensors for numerous fields of applications
- Measurement accuracies ΔE to 0.08

Optical micrometer and fibre optic sensors

- Highest resolution and accuracy
- Wear-free
- Ideal for process control
- Measurement of edge/position, diameter, gap segment

Draw-wire displacement Sensors

- Measuring ranges up to 50,000mm
- Resolution towards infinity
- Easy, fast and flexible mounting
- High operational safety & long service life
- Analog and digital outputs

Magneto-inductive displacement sensors

- Large measuring range
- Analogue, digital, PWM outputs
- High measuring rate
- High resolution
- Compact sensor design
- High volume OEM custom solutions

SI1500

- Support all Solartron Digital Probe
- Support 1 Orbit

SI3500

- Support all Solartron Digital Probe
- Support 2 Orbit Modules

SI5500

- Support all Solartron Digital Probe
- Support 31 Orbit Modules

WiGauge 2

- With LCD readout
- Bluetooth capable
- <0.1 µm resolution
- Display tolerances on the screen

Stand-alone

VLT® Automation Drive FC 301 /FC 302

LOW VOLTAGE AC DRIVES - 0.25 kW to 1400 kW

Versatile, reliable and consistently awesome

VLT® AutomationDrive takes full advantage of all that the new digital age has to offer to ensure it completely fulfils the requirements of your applications and optimizes your our processes throughout the entire lifecycle.

Features and benefits

- Built in PLC capability thanks to Smart Logic Control
- High-precision position and synchronization with Integrated Motion Controller
- Features such as intelligent heat management, Safe stop and Safe Torque Off ensure safe and energy-efficient operation of the drive

98%
Energy efficiency
Save energy and money

Supply voltages and power range

- 3 x 200-240 V...0.25-37 kW
- 3 x 380-500 V...0.37 kW – 1.1 MW
- 3 x 525-600 V...0.75-75 kW
- 3 x 525-690 V...1.1 kW – 1.4 MW

Low harmonic drive

- 3 x 380-480 V...132-450 kW

12-pulse drive

- 3 x 380-500 V...250 kW – 1 MW
- 3 x 525-690 V...250 kW – 1.4 MW

Predictive/condition-based maintenance functions

- for maximum availability of your application

FC 302 is now embedded with predictive and condition-based maintenance functionality.

It monitors the condition of motor to detect early issues like a smart sensors and alert owner to find solutions before they have an impact on the process.

Breakthrough
Technology

Condition-based monitoring stages

Based on standards and guidelines ISO 13373 standard for Condition Monitoring and Diagnostics of Machines or the VDMA 24582 guideline for condition monitoring.

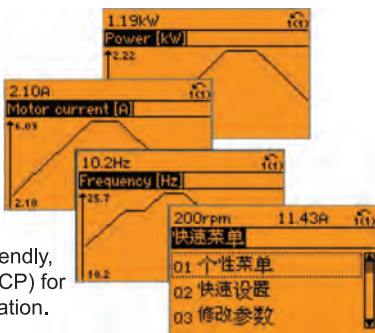

Feature	Benefit
Condition-based monitoring function embedded in the drive	<ul style="list-style-type: none"> • Reduced total cost of installation • Can be performed online & off-line. • Without additional components, such as PLCs or SCADA systems
Motor-stator-winding monitoring	<ul style="list-style-type: none"> • Ability to detect and react to early faults in the motor stator winding before the fault develops into a crippling failure • Inter-turn short circuit or unbalance in the motor winding is detected in advance
Vibration monitoring	<ul style="list-style-type: none"> • Ability to quickly detect and react to signs of mechanical misalignment, wear-out and looseness (Require external Vibration Sensor (4~20mA))
Load envelope monitoring	<ul style="list-style-type: none"> • Process optimization/maximized efficiency thanks to ability to compare actual system performance with baseline data and trigger maintenance actions

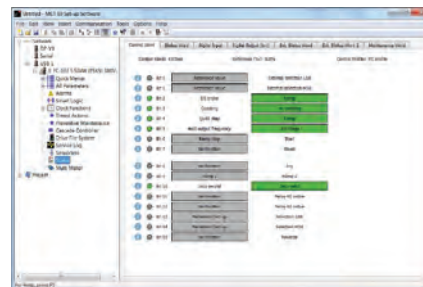

Intuitive setup with graphical interface

AutomationDrive features a user-friendly, hot pluggable local control panel (LCP) for easy setup and parameter configuration.

Easy engineering and setup with VLT Motion Control Tool MCT 10

Built-in Smart Logic Controller – Program it from the keypad

Communicates wirelessly with MyDrive

Making it easier for drive commission, operation, monitoring and maintenance

Remote Access, monitoring and diagnostic

Integrating web server in all Ethernet communication options

- Modbus TCP
- ProfiNet
- EtherNet/IP
- EtherCAT

Marine Winches

Palletizer System

Overhead Crane

Vacon NXP & NXC ac drives – The high-performance series

LOW VOLTAGE AC DRIVES - 0.55 kW to 3250 kW, 208~690Vac

Key Features	Benefits
Full power and voltage range from 0.55 kW to 2.0 MW for both induction and permanent magnet motors	Same software tools, same control and option boards allowing the maximum utilisation of NXP features over a wide power range
Extensive range of ready-to-use applications for basic to demanding needs	No additional software engineering required, saving time and money
Create your own applications with VACON® Programming tool (licensed software tool)	Customized applications provide added flexibility to meet process requirements
Five built-in expansion slots for additional I/O, fieldbus and functional safety boards	No additional external modules required. Options boards are compact and easy to install at any time

User-friendly Keypad

Vacon well-structured menu system that allows for fast commissioning and trouble-free operation

- Removable panel with plug-in connection
- Graphical and text keypad with multiple language support
- Text display multi-monitoring function
- Parameter backup and copy function with the panel's internal memory
- Vacon's Startup Wizard ensures a hassle-free set up
- Choose the language, application type and main parameters during the first power-up

All-in-one Application Package

Crane

Vacon's products comes with seven handy software application packages which can be selected with one parameter. (Basic, Standard, Local / Remote, Multi-step Speed, PID Control, Multi-purpose, Pump and Fan Control.

Vacon also offers several segment specific and advanced applications such as System Interface, Marine, Lift and Shaft Synchronisation for more demanding application.

NXP - Features

- Complete voltage range 230...690 V AC
- Removable panel with parameter back-up function
- Common control board
- I/O expandability, 5 slots and option boards in all frame sizes
- Marine type approvals and functional safety features
- Integrated brake chopper as standard in FR4-6, 380-500 V units

NXP Drive Module - Features

- Easy cabinet integration with additional assembly kits
- One of the smallest on the market
- Extensive marine type approvals
- VACON DriveSynch features for high power or/and redundancy

NXP Standalone - Features

- Extremely compact cabinet enclosure
- Delivered with ultra-rapid AC fuses
- Optional built-in brake chopper and
- DC-link connectors

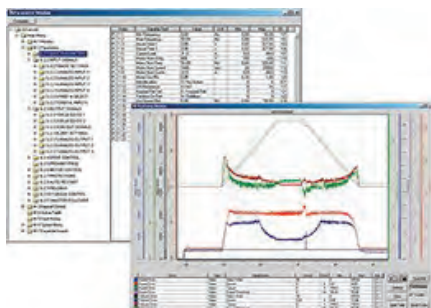

NXC - Features

- Robust and type-tested design
- Wide range of standard options
- One of the most compact on the market
- Welded Rittal TS8 frame
- EMC approved (EN61800-3, 2nd env.)
- Service concept with pull-out jig
- No additional fans in IP54 enclosure

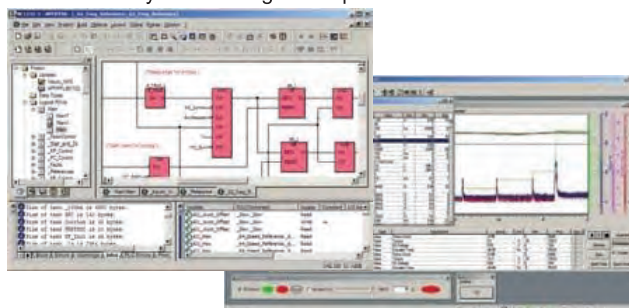

NXC Low Harmonic - Features

- Clean power with total current harmonics THDi < 5 %
- Over-dimensioning of power transformer or input cables is not required
- Regenerative function available
- Reducing system complexity
- No need for special 12-pulse transformers
- Well-suited for retrofit projects
- Increased flexibility with a wide range of standard options

Vacon NCDrive PC Tools for setting, copying, storing, printing, monitoring and controlling parameters.

Vacon NC61131-3 Engineering PC Tools is for making tailor-made software using PLC functionality built in the drive. A license key and training are required.

The General Purpose Drive

Commander C200
0.25 kW to 132 kW, 100V | 200V | 400V

The drive for a broad range of general applications.

Key Highlights

Simple, reliable motor control

- Straightforward installation and commissioning
- Set just 4 parameters to get your drive started
- Up to 180% overload for high torque applications
- Equipped with the latest energy saving features

Commander C300

Commander C300
0.25 kW to 132 kW, 100V | 200V | 400V

The drive for a broad range of general applications requiring STO, certified to SIL3/PLe safety rating and compliant with EN/IEC 61800-5-2.

- Dual Safe Torque Off (STO)
- Plug-in options for advanced control
- On board PLC
- Wide availability and outstanding service

QR Code for Easy Access to Support Documents

Easy motor pairing and performance control

- V/Hz for advanced performance
 - 100% torque available to 1 Hz
 - Slip compensation
 - Square law V/F mode
 - Dynamic V/F mode
 - Auto tune (stationary and rotating)
- Open loop vector
- Fixed boost by default for easy set-up
 - Multi-motor control
- Enhanced open loop RFC
 - Closed current loop for greater stability
 - Auto tuning (stationary and rotating)

Robust and reliable design

- PCBs conformal coated for resilience to harsh environments
- Patented air flow system cools and protects components
- Voltage tolerance for smooth operation during variable supply
- Intelligent 3 speed replaceable fan with failure detection
- Trip avoidance features take action instead of tripping out:
 - Load shedding reduces speed at current limits
 - Ride-Through momentary power interruptions and voltage sags prevent trips out
- High overload capability - 180% for 3s (RFC-A mode) or 150% for 60s (Open loop mode)
- Ingress protection: IP21-UL open class (NEMA 1)

More control, less cost

- On board PLC
- Built-in independent PID control

Energy saving

- Dynamic V/Hz - improves efficiency by reducing motor voltage during low demand
- 98% efficient - only 2% of energy is lost during the conversion process
- Low power standby mode - drives can be idle for significant periods, saving energy
- Automatic 3-speed cooling fan - keeps energy usage & acoustics to a minimum by intelligently responding to load and the environment
- Square Law V/F mode - optimized for quadratic loads like pumps & fans to reduce motor losses

Onboard I/O

- 3 x Analog I/O
- 5 x Digital I/O
- 1 x Relay
- 2 X STO (C300 only)

SI-I/O Module

- 4 x Digital I/O
- 3 x Analog inputs (default) / Digital inputs
- 1 x Digital input
- 2 x Relays

Communications Modules

UNIDRIVE M700

0.75 kW - 2.8 MW Heavy Duty - 200 V | 400 V | 575 V | 690 V

**CONTROL
TECHNIQUES**

Typical applications

Speed & position control for gearing & ratio control, winding, web handling, cutting, test stands, printing, packaging machines, textiles, woodworking, tire manufacturing and hoists.

Key Highlights

Class leading performance with onboard real-time Ethernet

Optimize system performance

- High bandwidth motor control 3KHz
- Flexible speed & position feedback
- Maximize throughput
- Onboard Advanced Motion Controller
- 1.5 axes control
- Flexible control systems
- Integrate directly with safety systems
- Onboard STO
- SI-Safety for safe motion

Flexible communications

- Synchronized RTMoE comms
- Fieldbus communications: PROFINET, Ethernet/IP, Modbus TCP/IP & EtherCAT
- Onboard IT & HTTP web page comms
- Conform to safety standards
- Ideal for centralized & decentralized control
- MCi module advanced system control capability
- Onboard PLC for logic programs
- IEC61131-3 programming
- Onboard real-time Ethernet (IEEE 1588 V2 PTP)

More Advanced Control Mode

- Open loop permanent magnet motor control (RFC-S)
- Closed loop Rotor Flux Control for induction motors (RFC-A)

Motor Position Feedback Modules:

- SI-Encoder

- SI-Universal Encoder

"Engineers can connect to the drive from any web-enabled device"

Industrial Internet of Things

1. Operational efficiency
2. Smart machine optimisation
3. Mass customization
4. Quality control
5. Remote diagnostics and monitoring
6. Predictive maintenance

Applications Modules

SI-Applications (M700)

- 2nd processor module, allows SyPTPro programs to be re-compiled for M700

MCi200 (M600/M700, E200/E300)

- 2nd processor provides advanced machine control via Machine Control Studio

MCi210 (M600/M700, E200/E300)

- MCi200 + dual port Ethernet interface on processor and additional I/O

Commissioning and monitoring software

Unidrive M Connect - Commissioning tool

Based on Control Techniques' 25 years' experience, Unidrive M Connect is our latest drive configuration tool for commissioning, optimizing and monitoring drive/system performance.

Automation and motion programming software

Machine Control Studio - Programming tool

IEC 61131-3 motion and automation programming

- Structured Text (ST)
- Function Block Diagram (FBD)
- Structured Function Chart (SFC)
- Ladder Diagram (LD)
- Instruction List (IL)
- Continuous Function Chart (CFC)

IntelliSense:

- Consistent & robust programs
- Speed up software development

Access to open-source community function blocks

Support for customers' libraries:

- On-line monitoring of program variables

Onboard I/O

- 5 x Analog I/O
- 8 x Digital I/O (including 2 x high speed I/O [250 µs])
- 1 x Relay Output
- 1 X STO

SI-I/O Module

- 4 x Digital I/O
- 3 x Analog inputs (default) / Digital inputs
- 1 x Digital input
- 2 x Relays

Remote I/O

Harmonic and Energy Saving Solutions

Advanced Universal Harmonic Filter - Lineator AUHF

Oil and Gas

Marine

HVAC

Wastewater

Data Center

Issues caused by harmonics may include:

- Transformer and distribution equipment overheating
- Random breaker tripping
- Sensitive equipment failure
- Poor power factor

Remote Monitoring

InSight™ provide remote web-based monitoring of the harmonic condition in real time, allowing easy remote access via any web browser or by adding a touchscreen display at the equipment.

MOS Lineator™
Marine and Offshore
Specific Lineator

Lineator ED
Extreme Duty
LINEATOR™

Revolutionary Reactor Design

- Will meet IEEE 519 Standard for both current and voltage distortion
- Up to 3% more energy efficient than Active Front-end solutions
- ABS / DNV or Lloyds Type Approved for marine applications
- "Wide Spectrum Harmonic Filter" that treats all harmonics generated by 3-phase diode or thyristor bridge rectifiers

RATING	For motor/drive system sizes 4kW-2600kW
VOLTAGE	Up to 690V
FREQUENCY	50 Hz or 60Hz
OVERLOAD CAPABILITY	150% for 60 sec
HARMONICS TREATED	All harmonics 5th and higher
K-FACTOR SUITABILITY	Up to 20 (Reduced to <1.5 on input of AUHF)
Max. CAPACITIVE REACTIVE CURRENT @ N.L. (kVAR as % of rated kW)	4 - 55KW: < 20% 75 - 2600KW: 10~15%
INPUT CURRENT DISTORTION	< 8% @ Full Load < 5% @ Full Load for HP version
EFFICIENCY	4 to 450KW: > 99.0% 500 to 1350KW: > 99.2% 1450 to 2600KW: > 99.4%
VENTILATION	Convection air cooled Forced air cooled (Option) Water cooled (Option)
AMBIENT TEMPERATURE	≤ 40°C Up to 55°C for ED version
ENCLOSURE	Type: NEMA-3R (IP23) Colour: ANSI 61 Grey Paint: Polyester powder coated Wall Mtg Capability: 4-150 KW
OPTIONS	NEMA-3R (IP23) Outdoor Ventilated Enclosure against rain and snow, Fan Cooling (110-2600KW), Hinged Doors (110-2600KW), IP rated

Lineator HP
High Performance

Harmonic Filter

GENLINK™ DPNL
Dissimilar Pitch
Neutral Limiter

Lineator 1Q3
Passive Harmonic Filter
for 3-phase VFD's
Operating on a 1-phase
supply

Product Training Facility

Costs reduction and improved system designs through training

In-depth hands-on interaction with products in training class

Training available at training centers across Malaysia and Singapore

Factory Calibration Service

To ensure sensor continuously performs to its specification, all new sensor are supplied with factory calibration and we also offer annual re-calibration service.

We offer full system calibration for sensors with digital displays, amplifiers, and/or USB Solutions and use calibration procedures in compliance with ISO 17025 standards.

Product Repair and Service

Provide local repairs and servicing for our customers

Help customers to reduce cost and machine down time

Works are carried out by trained and experienced technicians

Quick services and affordable price!

OFFICE MAP AND ADDRESS

SCIGATE AUTOMATION (S) PTE LTD

No.1 Bukit Batok Street 22 #01-01
Singapore 659592
Tel: (65) 65610488
Fax: (65) 65620588
Email: sales@scigate.com.sg

SCIENGATE AUTOMATION (M) SDN BHD

14, 1st Floor, Tingkat Talang Satu,
Taman Emas,
13600 Prai, Pulau Pinang, Malaysia
Tel: (60) 04 3997522
Fax: (60) 04 3997509
Email: info@scigate.com.my

SCIENGATE AUTOMATION (M) SDN BHD

17-3, Blk E1, Dataran Prima,
Jalan Pju 1/42,
47301 Petaling Jaya, Selangor, Malaysia
Tel: (60) 03 78047522
Fax: (60) 03 78047422
Email: info@scigate.com.my

SCIENGATE JB SDN BHD

No.72-01 Jalan Molek 1/28
Taman Molek,
81100 Johor Bahru, Malaysia
Tel: (60) 07 3519806, 07 3578806
Fax: (60) 07 3519807
Email: sales@scigate.com.sg
