12. Audit

Based on German and international copyright laws, Beanair reserves the right to check the legitimate use of the software by licensees (number of users / installations) or, in case of doubt, to have it audited by a third party (appointed auditor). The prerequisites for this are that the licensee is not a private individual and that there is a reasonable suspicion of misuse. An audit will be announced in writing 45 days in advance and processed during regular business hours, avoiding disruptions to the general operations of the licensee. In order to ensure that this can be achieved, the licensee agrees to support Beanair appropriately. Both sides are committed to complying with privacy policies and to maintaining business and trade secrets. If the review reveals that the licensee has too few licenses, Beanair informs the licensee and bills the missing licenses at the current conditions. The outstanding license fees have to be paid within 30 days after receipt of the invoice. The costs on the part of the licensee are not covered by Beanair. Costs incurred by the licensor must only be borne by the licensee if there is under-licensing that exceeds 5% of the license fees already paid.

16. Unenforceability

To the extent that any provision of this EULA is determined to be illegal or unenforceable, the remainder of this EULA will remain in full force and effect.

17. Entire Agreement

Certain program, data, and license files in the Software may be subject to supplemental license terms found in the documentation associated with the Software or directly in the files to which the supplemental terms apply. This EULA constitutes the entire agreement between you and Beanair with respect to the Software, and supersedes any previous communications, representations, or agreements, whether oral or written, except if you have a separate written, executed agreement with Beanair and the terms of such agreement conflict with the terms contained herein, in which case the terms of such agreement apply and take precedence.
