WE ARE DRIVE OBSESSED

**We're Control Techniques.
We're obsessed with drives.**

And we're working with equally obsessed engineers. The kind that aren't happy with one-size-fits-all. They need something different. Drives that are so flexible, they can be used as a base to build even better things.

Thanks to our unique network of Drive Centres, wherever you are in the world we have a drive obsessive near you. You won't find anyone here who doesn't know drives inside out. But we don't know everything – after all, **we're obsessed with getting even better.**
