

TYPE: TLL

TLL Stainless Steel Load Link

Description

The LCM series of load monitoring links have been designed for lifting and weighing in rugged or harsh environments, being manufactured entirely from stainless steel.

The TLL series are simple to install and are matched to standard shackle sizes. The links are normally supplied with a MIL specification plug and socket, and the whole package is environmentally sealed to IP66.

The TLL series can be supplied as shown in this data sheet, or can be modified to meet a particular application requirement. We are always pleased to discuss any special requirements that can be accommodated.

The TLL series can be supplied on its own or combined with our extensive range of instrumentation to provide a complete load monitoring system.

Specification

Rated load (tonne)	5, 10, 20, 25, 30, 40, 50, 100	
Proof load	150% of rated load	
Ultimate breaking load	>300 % of rated load	
Output	1.3 mV/V at rated load ($\pm 10\%$)	
Accuracy	$\leq \pm 0.25\%$ of rated load	
Non-repeatability	$\leq \pm 0.04\%$ of rated load	
Excitation voltage	10vdc recommended, 15vdc maximum	
Bridge resistance	350 Ω	
Insulation resistance	>500M Ω @ 500vdc	
Operating temperature range	-20 to +70°C	
Compensated temperature range	-10 to +50°C	
Zero temperature coefficient	$\leq \pm 0.01\%$ of rated load/°C	
Span temperature coefficient	$\leq \pm 0.01\%$ of rated load/°C	
Environmental protection level	IP66 (IP67 optional)	
Connection type	5 metres PUR 4-core cable	
Wiring connections	+ve supply: Red (A)	-ve supply: Blue (B)
	+ve signal: Green (C)	-ve signal: Yellow (D)

Available Options

- Special ranges and sizes available
- Can be supplied complete with shackles
- Can be supplied with integral signal conditioning
- Optional complete carry kit, including indicator
- Special electrical connections
- TEDS option (when used with TR150 handheld display)
- ATEX version available (see ALL datasheet) 

Features

- Ranges: 5 to 100 tonne
- Stainless steel construction (17-4PH)
- Environmentally sealed to IP66 (IP67 can also be offered)
- Special sizes and ranges available
- Higher range versions available
- Amplified output version available
- Ideally suited to be supplied calibrated with TR150 or TR200 battery powered load cell indicators

Typical Applications

- Cable tension monitoring
- Under-hook hoist and crane weighing
- Towing/mooring tension
- Crane safe load monitoring
